

RACCE is launching a local air monitoring project. Students and climate justice advocates can sign up to participate in the hyper-local research we are doing around schools and neighborhoods most impacted by poor air quality.

## Next Steps:

1. SIGN UP!
2. Attend a virtual information session.
3. Receive your Plume Flow 2 On-person air monitor.
4. Start collecting data and preparing your story about the air you breathe.
5. Receive a **\$200** stipend for your efforts and training as well as support to become your own best advocate.
